## 01 PROFILE

### Skills and Expertise:

- Proficient in HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, React, Python, PHP, and MySQL.
- Strong understanding of frontend and backend development with hands-on experience building user-centric websites and applications.
- Skilled in UI/UX design, delivering intuitive and visually appealing interfaces.

### Key Achievements:

- Designed and developed UI/UX for two websites, including one for Digizens Alliance (<https://digizensalliance.org/>), (<https://digizensalliance.org/>) ensuring an optimal user experience and seamless functionality.
- Collaborated on another website project, delivering a comprehensive interface, though currently not hosted on a domain.
- Built dynamic and interactive components using React and styled them effectively with Tailwind CSS and Bootstrap.
- Developed secure and scalable backend systems using PHP and MySQL, including user authentication and data management features.

### Additional Professional Experience:

- Completed two seaman contracts as a cadet, gaining valuable skills in teamwork, discipline, and project execution in high-pressure environments.
- Acquired a deep understanding of logistics, operational processes, and problem-solving in dynamic, fast-paced conditions.

### Education:

- Diploma in Business Information Technology – Solid foundation in IT principles, web development, and business systems.
- Diploma in Human Resources and Project Management – Enhanced understanding of project coordination, team collaboration, and business operations.

This version integrates your diverse experiences while showcasing your technical skill  
unique background. Let me know if you'd like further adjustments!
